Dear Colleagues,

We are delighted to be able to share with you the new online platform HPS.CESEE, which aims to facilitate the exchange of information about the history of scientific knowledge in Central, Eastern and Southeastern Europe. Our aim is to serve as a resource for the history of scientific knowledge in the region stretching from Prague to Perm and from Tallinn to Tirana, or from (present) Albania and Austria to (former) Soviet Union and Yugoslavia. We will keep you updated about conferences, events, new publications, journals and positions in our field - via our blog (<https://hpscsee.blogspot.com/>), newsletter, and social media: Facebook (<https://www.facebook.com/groups/hps.cesee/>) and Twitter (<https://twitter.com/hpscsee>).

As HPS.CESEE is a community project, inspired by H-Net and H-Soz-u-Kult, we will rely on the information we receive from our members and followers - so please forward this information to colleagues, students and other members of the History of Science community broadly construed. Please read our blog, subscribe to our newsletter, and follow us on social media, and send us information you would like to be circulated. And please contact us if you are interested in joining our editorial team.
