The mission of the Global Education Outreach Program (GEOP) is to promote Polish-Jewish studies internationally by supporting research and scholarly exchange on the history and culture of Polish Jews. It aims to bring together scholars in Poland with those in other countries and ensure the development of a new generation for Polish-Jewish studies. Thanks to GEOP, POLIN Museum partners with universities and research institutions in Poland, Europe, North America, Israel, Russia, and Australia.

GEOP joins the movement of supporting the academic community during the COVID-19 pandemic. The GEOP lectures and conferences are available online for all interested academics and those interested in Jewish history and culture.

With our spring newsletter we would like to remind you about some extraordinary video lectures, delivered within the GEOP Distinguished Lecture Series. In the subsequent newsletters we will keep you informed about GEOP's online activities and initiatives.

We hope that you stay healthy and safe!

The Global Education Outreach Program is made possible thanks to Taube Philanthropies, the William K. Bowes, Jr. Foundation, and the Association of the Jewish Historical Institute of Poland.
