"Feminist Critique" Journal

Gender Studies, Kulturwissenschaften

sonstige

The "Feminist Critique" Journal invites book reviews for the special issue dedicated to the Eastern European Feminist Conference "Gender Struggle in Eastern Europe" (Kaunas, 2019). Decolonial approach and feminist critique of neoliberalism are two main threads of this special issue. We are particularly interested in reviews of the books listed below. However, reviews of other publications related to the thematical focus of the special issue are also welcomed. In this case, please, discuss your interest with us before writing a review. An e-copy of books from the list could be provided upon request. Please send your requests and completed reviews to genderstruggle.specialissue@gmail.com.

The length of the review should not exceed 1,000 words; for more details, please see the guideline for authors. The authors of reviews written in Ukrainian or Russian that are submitted before March 31, 2021, and accepted for publication will receive a small honorarium.
