Studiengänge

'In Between?' is an educational project for students interested in exploring the history of the European borderland regions. The participants are given a unique opportunity to conduct academic research using oral history methodology and learn how to present the results with the help of the newest technologies. This year the participants will travel to the borderlands of their home country and meet in binational groups. The 2021 destinations are the Czech Republic, Germany, Poland, Slovakia and Ukraine.

Please check out for the dates of the two editions this summer on our website.

The application deadline is 20 June. Interested? We are looking forward to your application!
