***Journal of Contemporary Central and Eastern Europe (JCCEE)*** is a multi-disciplinary journal providing a radical critical analysis of economic, social, cultural and political perspectives and developments in the region bounded by Germany in the west and Russia in the east.

The journal welcomes submissions in all fields of the social sciences and historical and cultural studies, and seeks to stimulate social and political debate on current issues. In addition to single country analyses, ***JCCEE*** accepts multi-country analyses linking the region with the wider issues of world order, globalisation and inequality.
