ISBN: 2084-3518

History, Jewish Studies, Cultural Studies, Political Sciences

English

The issue is devoted to the diverse aspects of violence in 20th-century European history. It features two distinct contribution categories: studies and essays. The research papers showcase the complexity and multiple perspectives from which the phenomenon of violence can be studied. The second category is the synthesis of the most important lectures presented at the European Remembrance Symposium, 'Violence in 20th-century European history: commemorating, documenting, educating', Brussels, 2017.
