ISBN: 978-3-89665-946-0

Philosophy  
English

The book attempts to make Polish Plato reception available to non-Polish readers. The years 1800-1950 cover essential phenomena in modern Polish philosophy, for they encompass periods of reception of Western philosophical trends and the development of the Lvov-Warsaw school, neo-Messianism and neo-Scholasticism. The book discusses how each of these phenomena contributed to interpreting Plato. The material is divided into three main parts focused on various types of reception.
