Angielski

The book analyzes relations between Poland and Mexico from historical and contemporary perspective. It includes their political, economic and cultural dimensions, as well as the role of Polish migration to Mexico. The timeframe of the work is from the beginning of first direct contacts between the states till 2017 and the announcement of the strategic partnership. The book provides an overview of the general determinants of bilateral relations, their evolution, main problems and challenges in the Polish-Mexican cooperation.
